

Please do not allow telemarketers to begin their call again. It has been wonderful not to have our one meal together at home interrupted by these calls. We do not want to have to continually get up and answer the phone only to have this crap on the other end. If we are interested in purchasing or receiving the products they are selling we would seek them. WE DO NOT WANT TO BE CALLED. It is enough to get all the junk mail that is filling up our landfills. Also, my elderly parents have to get up and nearly crawl to the phone to answer these nuisance calls. Their quality of life as well as ours is being invaded by these calls.

Thank you for your consideration.
